### OSE MIRAPLUS WELDING HELMET

- ADF adjusts from shades 10.0 to 11.0 with toggle switch
  - Solar powered
  - Telescoping headgear design
- OPT K532**

### OPTREL SATELLITE WELDING HELMET

- Multiple shade ranges from shades 5.0 to 9.0 or 9.0 to 13.0
  - Dark or light delay switch
  - Selectable fast or slow response
  - Solar powered
- OPT K600**      Black  
**OPT K601**      Blue  
**OPT K603**      Green

### FMX WELDING HELMET

- Heat and scratch resistant
- Lightweight, full size ADF helmet
- Proprietary shell polymer
- Adjustable non-slip / non-strip ratchet headgear with multiple adjustments helps to position ADF in front of eyes
- Smooth thermoplastic crown
- ADF shades 9.0 to 13.0 lens

- FIB 2999BC913X1**      Flame  
**FIB 2999BV913X2**      Demon  
**FIB 2999BC913X3**      Wire burner  
**FIB 2999BV913X8**      Master black  
**FIB 2999BV913X9**      Master blue  
**FIB 2999BV913X10**      Master red  
**FIB PC90110**      Replacement cover plate      Five / pkg  
**FIB FMXHBLBAG**      Black storage bag

### PIPELINER STYLE WELDING HELMET

- Designed for pipe welders
  - Moulded from Superglas Plus™
  - Constant fit rubber headband
  - Fibreglass, white
- FIB 110PWCSA**

### TIGERHOOD CLASSIC WELDING HELMET

- Noryl® moulded lightweight thermoplastic
  - Moulded-in glass holder with telescoping lid
  - Shade 10.0 lens
- FIB 906GYCSA**      Grey

### TIGERHOOD FUTURA WELDING HELMET

- 2" x 4-1/2" lift-front glass holder
  - Lightweight, high impact, ultra-smooth thermoplastic
  - Chemical, scratch and crack resistant
  - Shade 10 filter plate
- FIB 2006SRCSA**      Silver

### ELITE AND DIGITAL ELITE SERIES WELDING HELMETS

- Elite features auto-on / off and grind mode
- Digital Elite features auto-off, manual on, grind mode, cut mode and x-mode
- 30% larger window
- Four independent arc sensors
- 1 / 20,000 second lens speed
- Variable shade #8 to 13 and light state #3 (digital elite offers shades #5 to 8 in cut mode)
- Includes magnifying lens holder

- MLR 222669**      Elite      Inferno  
**MLR 222670**      Elite      Maple leaf  
**MLR 234763**      Digital Elite      Black

### PERFORMANCE SERIES WELDING HELMETS

- Auto-on / off and grind mode
- Three independent arc sensors
- 1 / 20,000 second lens speed
- Variable shade #8 to 13 and light state #3
- Ratchet style headgear with precise control
- Includes magnifying lens holder
- Quick-release front cover lens assembly

- MLR 232035**      Black  
**MLR 232039**      Motorsports

### WELDING GOGGLES

- Flexible frame
  - 50 mm lift front, dual lens design
  - Shade 5.0 IRD
- NOR GW400F**

### WELDER'S GOGGLES

- 2" x 4-1/4" viewing window
  - Soft, contoured vinyl frame with hooded vents
  - Accommodates a magnifier
  - Shade 5.0
- NOR GW200**      Lift-front  
**NOR GW600**      Stationary front

## BIONIC® FACE SHIELD

- Lightweight, balanced, ergonomic design with enhanced protection, excellent optics and increased visibility
- Worn with most goggles and respirators
- Ratchet suspension with washable, breathable headband and cell foam back or hard hat adapter compatible with most hard hats
- Black matte shield with polycarbonate anti-fog coated clear lens
- Replaceable cutters shade 3.0 and 5.0 lenses available
- Note: face screens and face shields are considered a secondary eye protection only - approved primary protection safety eyewear must be worn for full compliance

**UVX S8510** Ratchet suspension  
**UVX S8515** Hard hat mount

## BIONIC® REPLACEMENT VISORS

**UVX S8555** Anti-fog / hardcoat Clear lens  
**UVX S8560** Uncoated Shade 3.0 lens  
**UVX S8565** Uncoated Shade 5.0 lens

## HIGH PERFORMANCE FACE SHIELDS

- Lightweight
- Easily fits over spectacles
- CSA approved

**FIB F300CSA** 3" crown 3SR  
**FIB F400CSA\*** 4" crown 3-C  
**FIB F500CSA\*** 7" crown 3-C

\* Accommodates wide vision wraparound windows and screens

## HIGH PERFORMANCE VISORS

- Injection moulded, pre-formed propionate
- Seals against dust, dirt and debris
- 0.060" for extra margin protection
